**Security Label:** [Restricted](#)

All

This is the latest correspondence from [Mr Hall](#). I don't intend a response separate from the one we talked about last week. (I did wonder over the weekend whether there is anything to be gained from my offering to meet Mr Hall on my own - on the basis that while it might not achieve anything it probably couldn't make things worse and it just might help. Grateful for any thoughts about whether, before we send the letter we discussed, there is a case for making a final attempt like that. Either way, I hope this pm to look at the draft and handling proposals that Nick sent around just over an hour ago.)

Keith - there is an FOI request in here that, as discussed on Friday, we'll consider on its merits. Can I leave you to pick that up please.

Thanks

Mark
