“Assignment information on the assignment database reflects assignment documents that have been actually recorded”.

OBSERVATION: This is a disturbingly clever use of words (“*actually recorded*”). Given that the USPTO’s officers evidently almost always aim to rely on details in panels on the Correspondents’ **Form** ([SEE FORM FOR DETAILS](#)), not on the matching or conflicting details on the Correspondent’s accompanying document(s), it is too often the case that “*assignment documents that have been actually recorded*” either (a) have never existed or (b) have existed/do exist, but [have not been made available](#) for inspection. In the 2001 recordal case above, a document as “*actually recorded*” [does exist](#) *, but it wasn’t signed “*by two directors*” ([SEE DOCUMENT FOR DETAILS](#)). In the 2004 recordal case above, a document as “*actually recorded*” [has never existed](#), so it is not possible to “SEE DOCUMENT FOR DETAILS” of such a [fictitious](#) transaction – all that [the observer](#) can “SEE” on application to the USPTO for a \$35/\$315 copy or by [searching](#) for a [PDF icon](#) is [THIS](#) mock-up AGREEMENT “[extract](#)”.

*** BUT NOTE THAT THERE IS NO ASSIGNMENT OF THE APPLICATION FROM THE INVENTOR-APPLICANT. NO ASSIGNMENT EVER EXISTED. THE PRIORITY DATE PRE-EXISTED ALL COMPANIES NAMED.**
